Yes, chemical drain cleaners take care of tough clogs. But they're often expensive and laden with toxic additives. So try a more natural--yet effective--approach with these rubberized, bendable drain tools. Just insert the FlexiSnake into a drain and twirl. A flat pad covered with hook-and-loop material grabs hair and soap residue and for a quick, clogged sink, tub, and shower drain fix.

- Includes two regular sized tools and two junior sized tools
- Regular tools measures 26"L with 1/2"W pad
- Not for use with solvents or extremely hot water
- Made in USA

It worked!

"I've had 3 slow drains for months and been putting off calling a plumber. I saw this tool on QVC and thought I'd give it a try, not really expecting much. Well, I used it on all 3 drains and they are now free of hair and draining well. Although it wasn't the most pleasant task I've ever done, it beats the heck out of paying a plumber."

Flipping amazing!!!

"So I noticed that my shower started to overflow. I have a lot of hair so had a feeling that my hair was starting to clog the drain. I used this... I pulled out what looked like a baseball monster size of hair. Totally disgusting, smelled horrible... but, IT WORKED! And for those concerned about the one time use think of it this way... you would usually purchase a one time use jug of some chemical that is meant to break down the clog and then goes into the sewer system with those harsh chemicals... instead this is a one time use item that pulls the clog up instead of pushing it further down AND it doesn't dump harsh chemicals into the sewer system. Plus, after pulling out the hair monster I don't think I would want to use it again...."

"My husband spent hours taking the bathroom sink apart trying to get to the clog but was not able to get the bathroom sink to drain properly. I spent about 5 minutes using the small snake and I pulled out a glob of hair from the head of the Previous Owner of this house! 7years we have lived with this slow running drain and thanks to this great product... The Drain IS Fixed!!! Love it! It slipped right pasted the POP-UP drain, not a problem. And yes, I would use it once and toss it. After all you do get 4 in the package."

Great Product

"This is a great product for getting hair and gunk out of sink, tub and shower drains. I am a woman who knows nothing about how to remove drain stoppers and drain plates so when all my drains became sluggish, I was stumped on how to get the gunk out. I saw this on QVC and decide for the low price it was worth a shot. I was so happy with the results. It took a few times of inserting the wire into the drains and removing, but afterwards all my drains work just like new. Thanks."

## FYI: Disposable

"I received my FlexiSnake and used the one for the bathroom sink drain. It did remove a lot of gunk. But my husband, who had the job of trying to clean it, concluded that it was a one-use type item. I said no, that can't be.

Then I went to the manufacturer's site, and sure enough:

"Just like drain cleaners, FlexiSnake is disposable. For sanitation, throw away after use. If not disposed of immediately, clean completely with an old toothbrush and disinfect."

So while I was satisfied with the results, I am not happy with the fact that this is essentially a one-use item"

"I have long hair and my bathroom sink gets clogged no matter how vigilant I am about keeping hair out. DH always grumbles when I ask him to clean out the drain. I saw this and figured it was worth a try. Works excellent! I've used it two different times and it cleaned the drain perfectly. I also get the satisfaction of telling DH I did it myself and don't have to listen to him grumble."

## Works Great on my Bathroom Sink

Posted by QVC devotee 05-04-11

"My bathroom sink routinely starts running slowly though I have short hair and take care not to let anything gunky go down. I do not trust chemicals for I am afraid they will eat away at various components of the drain system and I will be left with a leak somewhere. I was not able to get this down my bathtub drain (just experimenting....that runs very well) so basically I am using these "snakes" in just one sink. It is hard to get a plumber in and the price is very high. If I use one of the "snakes" only on this one bathroom sink, they have already paid for themselves. Plus....I am spared a lot of aggravation..aggravating thoughts like these" "...afraid guests will notice the sink running slowly, will I get some creepy stranger plumber in my home, I should do something but I will take care of it another day." A slow running drain can be an aggravation taking up too much of one's thoughts....just buy these and try them. If they do not work, send them back. Return postage with the QVC label is under \$7. One doesn't want to pay return postage often so it is to be thought about. However, enough people have been buying these and satisfied with them that odds are you, too, will find they work. For most people, they have some sink somewhere where these work. Give these "snakes" a try."

## Works Great!!

"I tend to read the negative reviews to see what folks don't like about the products. Well, these worked GREAT. It takes a little time to do it but my sink would fill to the overflow with water on a regular basis. I spent about 15-20 minutes with this flexisnake and pull enough hair out to make a full wig! The sink - flows like new! Any excess "gunk" comes off pretty easy with water and an old toothbrush. HIGHLY recommend this product."

## drain? no, but vacuum hose, yes

Posted by DrJo 03-21-11

**Overall Rating** ★★☆☆☆

"I never got anything out of the drains other than a few strands of slime-covered hair (and I ran it all the way down to the handle). Ultimately I had to resort to one 15-minute treatment of drain cleaner to do the job. HOWEVER, this thing is great for snagging clogs out of the vacuum cleaner hose! It seems that as long as the clog is dry (like the steel-woolish stuff demonstrated on air), it works fine."

"I was skeptical when I saw this being presented. For years the only thing that would take care of my clogged drains was a professional plumber. I decided to give this product a try & I was amazed at the results!! After 1 minute, my clog was gone. I was shocked at the gunk this little tool removed from my pipes. I am now ordering a set for my mother & my in laws. Great product QVC!!!"

"I did have a set of the flexisnake bendables, that I ordered last year, and thought I lost, so I ordered the new ones, and go figure the old set magically appears. I tried them in our bathroom sink and nothing, it only pulled up a couple strands of hair. The drain was clogged further down the line and I had to call a plumber, the new purchases set is on the way back."

**Did not work at all**

Posted by bktogfor 02-22-11  
 (read all my reviews)

Overall Rating 

"I bought this because it looked like a sure-fire way to save money on chemical drain cleaners. It did not work at all for me. Package says it is "ideal for smaller drain openings". This was not true in my case. I used as instructed in my bathroom sink since this is one of my worst drains due to hair - it barely made it through the opening & once it did, I was able to advance it part of the way but unable to twist it as they tell you to do. I was unsuccessful after numerous attempts to bring up any hair, which I KNOW is in the pipe. It brought up a small amount of "gunk", but nothing else. I was not even able to come close to fitting it down the tub drain (2nd worst drain in the house) - the grid does not come out of the drain opening & the snake would not fit through the slots in the grid (not even the smaller snake). I doubt I can send them back since there is "gunk" on 2 of them, so I guess I'll just eat the cost & keep buying the liquid/gel drain cleaners. Sorry QVC, I really thought this would have been a money saver & a great solution to a frequent problem, but not for me."

"Upon receipt of the FlexiSnake, I was anxious to see if it would work on my slow drain as demonstrated on TV. This tool removed a hair plug that I was unaware of...just as demonstrated. I'm glad that it came with 4 because I have 3 baths. I can't wait to have my son use it in his tub/shower as he shaves in the shower and I'm sure there must be hair in it.

Excellent, inexpensive tool and worth every dollar. I will be telling my friends about it."

"I have waist length hair, average person sheds over 100 strands of hair a day, for me that is mainly in the shower. I pulled something that looked like that hairy guy in starwars out of my tub drain without having to try and lure a maintenance man over to my apt. (unless it is an emergency and the water is not draining at all it is very low priority for them unless you just made brownies). Using the Snake was easier then making brownies. It did take a few tries to get the hang of it - but in the end it did what it was suppose to do."

"I am so glad I deecided to order these. At the present time I use baking soda and vinegar to clean my drains so I asked myself do I really need them, but being a gadget gal I got them. And for all you people who complain about shipping charges I paid \$9.97 to have them sent to Canada and IT WAS WORTH IT. I have already used them only hours after receiving them. Call me crazy but I plan on showing them to all my friends."

"I was so tired of taking a shower with inches of water in the bottom of the tub. I was afraid that I was going to have to spend the money to have a plumber fix my drain. When I saw this on QVC, I thought that I'd try it because the price was so reasonable. When I got the FlexiSnake, I immediately went to work on my drain. I don't even want to talk about the hairy yucky gunk that I pulled out of my drain. Today I was able to take my shower without standing water in the bottom of the tub!! I'm so pleased with this product. I've already told one of my friends about it. Thank you for the great, reasonably priced product!!"

Description

Delivery Date Estimate

Yes, chemical drain cleaners take care of tough clogs. But they're often expensive and laden with toxic additives. So try a more natural--yet effective--approach with these rubberized, bendable drain tools. Just insert the FlexiSnake into a drain and twirl. A flat pad covered with

hook-and-loop material grabs hair and soap residue and for a quick, clogged sink, tub, and shower drain fix.

- Includes two regular sized tools and two junior sized tools
- Regular tools measures 26"L with 1/2"W pad
- Not for use with solvents or extremely hot water
- Made in USA

"Just received these drain snakes today--I had standing water in bathroom sink--used one of these snakes and in seconds my drain was unclogged--I was amazed how much hair and soap was removed. I would have paid for just 1 snake but 4 were included in price--no more buying drain cleaners anymore. This is a great product and so simple to use"

## 6 STAR Product

Overall Rating ★★★★★

"Anyone with a clogged drain should purchase this product. I've had a slow draining bathroom sink for ages and tried every product on the market. I tuned in and this product was on the air. I was skeptical at the beginning, however I said let me try it. I received it and immediately took it out of the packaging....Still skeptical as to how this wire was going to unclog my drain. I placed the wire in the drain as outlined and turned it and couldn't believe my eyes!!! After saying Uuck after seeing all of the hair come out I said OMG....I even was able to get strains of dental floss out of the drain. I then ran water in the drain and the water drained out faster than I could turn off the faucet. This product is amazing....I've purchased many products from QVC, however, this product is the only one I have EVER wanted to write a review so that others would know if they have a clogged drain do not hesitate to purchase....

## Wish I Got Better Results w/This

"Maybe it's the type of shower/tub drain I have, but I did not get great results with this. It only pulled out a few strands of hair at a time.. not the entire clog. I guess it helped but it was messy and time consuming to use. Maybe it would work better if used on a regular basis for maintenance rather than waiting for a serious clog??? Not sure what I am missing based on all the great reviews, but I just wasn't terribly impressed."

I used to use powerful chemicals and they did not do the job as well as this drain tool does. Highly recommend."

Bathroom sink water shoots right out!!! Gave the other one to my son. Every house with a bathroom sink or tub should have one of these in the bathroom or tool box!!!! Perfect gift for newly weds, and 1st apt. or home renters/owners. Good housewarming gift,!!!!"

"This flexisnake is great. My husband is a plumber, and absolutely hates cleaning our drains. I have longer hair now (thanks to Wen products), that does get caught in our shower drain. My husband even asked me to cut my hair again so he didn't have to run the drain cleaning machine!!! But I bought these, not really being sure if they would work. It has been quite some time now and my husband can't figure out why he hasn't had to clean our drain. I'll just let this be my secret."

## A MUST HAVE FOR THE SINGLE WOMAN

"With 199 other reviews making this a "Customer top rated" purchase, there is hardly a need to add to what has already been said by others except that my own personal experience saved me from having to call out a plumber and paying big bucks for a service call when purchasing this product that is something so simply to use that anyone could solve a lot of their own plumbing problems. By purchasing this trap cleaner, it prevents you from not having to purchase chemicals that are dangerous to the environment and solves the same problems very efficiently. This product is especially handy without having a man in the house to take care of such problems and is something every women should never be without. I'm sure the invention of this little gizmo has cut into the calls and profits made by plumbing establishments and helped the homeowner to easily take care of their own bathroom drain problems. Just be prepared to see sights you'd rather not see when cleaning out your drains."

"Just used mine today for the first time. I will give one of each size to my sister to use and I kept the other two. It does work! I bought the flexisnake because my sink has been draining slow and I have been standing in water in the shower. I still can't believe all the hair I got out of my bathtub. It is amazing and disgusting! I like that I am able to do it on my own without needing someone to come fix it for me. The larger size didn't fit in my drain but the jr worked great. I did have to play around with it a little to get it down in the pipe but pretty easy and very effective."

"I had so much fun using these! Ok, I know that sounds insane, but I love new cleaning tools that make life easier! I cleaned all our sinks and bath tub drains and was very impressed with the ease of use. I had no problem pulling off the gunk and hair from the tools. I just used tweezers. I also realized if that much cream rince was in my tub drain, I should probably be using less! So the tools have now saved me money!"

## A Fabulous First Responder!!!

Posted by Anonymous 09-18-10

Overall Rating ★★★★★

"I was astonished at how much hair was clogging up the drain. I have long hair and pulled out two huge fistfulls of hair and soap scum using the larger one first and then the smaller one. Incredible. I did not need to use anything else to clear the drain. Nothing. The men's shower was a different story. Short hair, but still there was a large mass that came up. And gunk! Too much gunk! There was a need for a plunger and later, a bottle of the chemical de-clogger. However, I am absolutely sure that had I not had these tools, that clogged shower would still be a problem. Highly recommended for any household as a potential first responder! Especially for households where long hair resides! I agree with another reviewer and am buying them for household stocking stuffers!!! AND...It was worth a whole lot to be able to take of the clog myself."

## AMAZING RESULTS!!!

Posted by megaqvcqueen 09-15-10

 (read all my reviews)

Overall Rating ★★★★★

"I also saw Jacque Gonzales raving about this product, and ordered it, as I have had a slow bathroom sink drain. When I used this for the first time, I was totally shocked (but pleased!) by the excellent results. My drain was clogged from old soap scum and make-up removal. This product worked so well, and now my sink drains quickly- I'd forgotten what was supposed to be "normal." I have short hair, so that isn't a huge issue for me in my drains; however, I can well imagine this would work equally as well on hair clogs. I highly recommend these very inexpensive, and very easy-to-use solutions to a potential costly problem requiring a plumber."

## WHAT A FIND !!!!!!!

"My son was having a problem with his bathroom sink. Periodically, I have to pour Drano or Liquid Plumber down the drain. This usually takes care of it, but not this time. I ordered the FlexiSnake, but I didn't put too much stock in these little things being able to solve the problem. BOY, WAS I WRONG!!!! In seconds after removing a lot of debris from the drain, it was working better than new. Worth every penny & more. Do not hesitate to snap this item up. Would make great stocking stuffers for all those on your list."

"Great product! I used it a couple of times in the bathroom sink and tub and immediately it drained better. So nice to take a shower and water actually be draining out of the tub instead of standing. I liked the two sizes as well. Gives me the flexibility of using the one that fits. Just recommended to my co-workers! Thanks for saving me a plumbers fee!"

### The best 16 bucks I ever spent!

Overall Rating 

"OK so I decided to buy this product mostly out of desperation and Jackie Gonzales was bragging on it so I was sold. It's very confusing trying to figure out what to get. Should I get the drano stuff or a plunger or whatever the home depot stores suggest... A few months ago I had my tub drain fixed and new pipes replaced out to the main drain so I knew it was an isolated problem therefore I went for it.

Well at first I thought it wasn't going to work because, it was only grabbing a bit of hair and the water wasn't moving. After a few tries, I decided to swirl it around in the pipe and pull it out slowly, well that was the trick. This thing worked in about 5 mins. maybe less. I must say Jackie was right the gunk was pretty bad but the results were well worth it. THANKS JACKIE!

Great product don't hesitate to buy. I mean it!"

## Excellent product -Everyone needs a set of these!!

"I have been wanting to order these and finally bought them. My bathroom sink has been backing up and liquid drain cleaners have not been doing the trick. I opened my package from QVC, stuck the FlexiSnake into my sink drain, pulled out a HUGE clump of hair and junk and viola! - my drain is fixed and the sink is emptying beautifully! I am ordering these for my father and my husband's grandfather for Christmas. They are "fix-it" men and I think every house could use this tool. Anyone who uses a sink and tub/shower that has been clogging or backing up needs this tool! I couldn't get onto QVC.com to write my review fast enough. Excellent product!"

"Sometimes something so simple can do the job and this certainly does!  
Received this the other day and used it on a shower drain. I couldn't not believe how much "gunk" it got up! Only thing though is that the hair eventually snagged on to the "teeth" of the gripper and I can't get it off... It did lose it's effectiveness since there wasn't anything to truly "grip" on to.. You may have to try it a few times and eventually it will unclog.  
It is a good product and it did do it's job!"

"Because this is the greatest tool! Cheap and efficient and works EXACTLY as advertised with no expensive chemicals needed. I could not be happier. I immediately de-clogged all my annoyingly slow bathroom sink drains & bathtub/shower drains like a woman possessed. Yes, it is messy but seriously what do people think is INSIDE your drains? If you don't want to handle your own hair clogs, then call a plumber and write a big check. For me, I

love this product. Will use it monthly to stay ahead of the clogs. BTW I used the small one in the sinks and the big one in the tubs/showers."

If you have a clogged drain, give this a try before using chemicals or calling a plumber. This is a great product."

"As soon as I received these I put them to work in my bathroom sinks and tub. They definitely pulled out LOTS of hair! The only problem? It's kinda hard to get that hair (and other gunk) off of the tool. I suppose I should have expected that, but it's just kinda gross. But it's worth it to be able to take a shower and wash my hands without filling my tub and sink!"

### WOW! It works!

"When I received this little package from QVC I wasn't sure what it could be. When I opened it, I was kind of disappointed because the snakes looked so small. Then I tried it on my bathroom sink which had been draining slow for months, and WOW - I couldn't believe the gunk it brought up! Lots of it was long, black hair (mainly from my son who sleeps over a lot and has long hair, Willie Nelson style). Anyway, the little "snake" cleaned out everything and my sink is running like brandnew. I could've put in a request to our maintenance guy, but it takes him forever to come around!!!! So - if you can fix it yourself, why not do it, especially at this low price? BTW - took the second set to my son this afternoon and he cleaned out his sink - there was even more hair in his than in mine but it all came out. Great product, things are running smooth again. Thanks!"

"I bought this as a tool to have on hand. I used it in my bathtub, it did a great job pulling the "gookie stuff" out from the drain. My mother called and said she had a clog, went right over and unclogged her bathroom sink. She was also pleased that she saved money by not calling a plumber, and the drain now works fine. Highly recommend this for do-it-yourself types. Water can do much damage."

"I have long hair and my bathroom sink gets clogged easily. My ex-husband used to twist out the pop-up thing in the sink, and in the bathtub, but I don't know how to do that, so now that he's gone, I have to do things around the house myself. I ordered these, and let me tell you, they are FABULOUS!!! Easy, and fast to use, with no learning curve. LADIES!!! Get these, especially if you are single and want to be self-sufficient. These are also great if you want to avoid nasty chemicals. I can't believe the crud this little gizmo pulled out of my drain! EEEEEW!!!! All the soap and slime that got stuck to the hair was incredibly gross, but now my drain runs clear as a charm. Would be a great stocking stuffer."

"I recently received this item by mail and immediately used it to see if it worked the way everyone said it would. I live in an older home so you can imagine a clog problem in the bathtub. Whenever I showered I had standing water in the tub as I bathed - so when I received the flexisnake I went to work. I don't remember who they said invented this item, but it is WONDERFUL! It took a little work because I had to remove the drain cap - it works beautifully. Thank you QVC for bringing these people to your company."

"I received this on Friday and couldn't wait to see if this actually works. What a surprise.....yes it does. Very easy to use (just follow the direction sheet which is included). I already tried this on the 2 bathroom sinks as well as the bathtub, and couldn't believe the glop that came out.

I think this is safer to use than Drano or other products of this type. It's also very easy to clean after using. I will probably use this every 2 or 3 weeks just to make sure there is no buildup of stuff in the drains.

Try it...you'll be pleased."

## These Work!!!!

"Saw the presentation and ordered them, as the water in my bathtub is up to my ankles every time I use the shower. I've had a general "jack of all trades" maintainance man tell me he used a snake and was unable to clear the drain so he didn't know what was wrong. I took the paddle one first, then used the brush one. I spent about ten minutes really working them down my tub drain, and I now have no water buildup! What a super invention, and a super investment. I plan to do a little routine maintainance about every two weeks with these, so my tub drain stays free-flowing. Thank you to the Q for another great product. Now if you would only bring back Kathy's Ring (the gorgeous diamonique ring named for Kathy Levine) in 18 ct overlay I would be really happy!"

"The very first time hair and gunk came right out. All I did was inserted the flexi snake down and turn it a couple of times while pulling out and there it was. A big clog full of hair. I did the bathroom sink, tub and the kitchen sink and wow. Very impressive, try it for your self ."

"Had a clog in my bathroom sink and couldn't remove the drain stopper to get to it. The tool fit right down between the stopper and the pipe and I was able to clean the drain of many months worth of long hair, soap residue, etc. -- within minutes. The plumber would have charged \$105.00 just to walk through the door. This little tool is truly worth it's weight in gold."

"Don't hesitate - BUY this item if you have slow or clogged drains. I was flabbergasted to see how quickly and effective this simple, ingenious tool ended up yanking out horribly, disgusted-looking globs of algaed, fungal, black hair stuck in sink drain for over past 8-9 years. Just like demonstrated on QVC, it was so easy to fix our drain! Unbelievable! Such a basic concept which I thank the FlexiSnake creators to invent such an important remedy! I got so excited that i ran around and tackled more sinks as well as shower drains. What you don't see can hurt you - all the bacterial and fungal growth building up in drains - can make you sick w/ asthma/allergy issues and other illnesses. Liquid agents are not a good idea b/c of toxicity AND doesn't work anyway! Trust me, FLEXISNAKE IS GREAT AND EVERYONE SHOULD GIVE IT A TRY. You will be pleasantly (rather grossly) surprised!"

Yes, chemical drain cleaners take care of tough clogs. But they're often expensive and laden with toxic additives. So try a more natural--yet effective--approach with these rubberized, bendable drain tools. Just insert the FlexiSnake into a drain and twirl. A flat pad covered with

hook-and-loop material grabs hair and soap residue and for a quick, clogged sink, tub, and shower drain fix.

- Includes two regular sized tools and two junior sized tools
- Regular tools measures 26"L with 1/2"W pad
- Not for use with solvents or extremely hot water
- Made in USA

"i didn't know there were such things as bendable snakes; we always used a bent coat hanger which scratched our sink. so when i saw these on qvc, i thought, "well, for the price, why not?" maybe they have them in big box stores, too, but i wouldn't know where to look. so first i tried one of the snakes on my husband's sink--he's a slob. got all the gunk out. then i tried my sink which wasn't clogged and i was shocked--the hair and gunk just kept coming and coming and coming . . . it was amazing. these little things work great--i'll never be without them again. i'm a klutz, so is my husband, but anyone can use these. they sure make a difference!"

"It's as easy as it looks during the presentation. My drain was slow, not plugged, but it was so easy. I was using the vinegar, baking soda and salt remedy but had trouble getting most of the dry ingredients down the drain and then had to run a lot of water to be sure the corrosive salt was out of the pipes. This is a better way. Simple to clean with paper towels, rewind and store in zip bag."

"Wow, I had no idea I had so much hair stuck in my shower drain. I had never removed the drain cover before as it has never stopped up on me. I thought I would try the snake anyway. A huge clog came up. I then poured a lot of hydrogen peroxide around the drain area to bubble away some nasty black stuff. (Peroxide really works on cleaning shower door tracks too.) I then used the smaller snake on my bathroom sink drain and it worked just as well. Great product."

"I've got to say that I had my doubts when I took the snakes out of the package. My tub was draining sooooo slow when I would shower and I did not want to continually use chemicals in it. I tried both sizes of snakes and thought "what a joke" as they didn't pull out as much junk as I expected. But when I showered, it drained and I wasn't standing in water any more! They're keepers!!!"

"I used one in my bathroom sink, which has a brass pop-up stopper. It was a little difficult to get the wire past the obstruction, but it did pull up some hair; not as much as I expected; however, the product does work, and I wish I'd bought it before I ruined the ring around the stopper, with chemicals. It's just not a gift item."

This product really worked for me and saved a ton of money on the plumber. I can't wait to show other people. Good job...great product..."

## Just Amazed

"I got this as a Christmas present (yes, I asked for this when asked for something smaller - aka stocking stuffer). The bathroom sink had about a good 1 to 2 inches of standing water this past weekend. My first thought was oh no, have to remember to get drain opener stuff at grocery. Then I remembered I had the bendable wire drain tools. I opened the package and read the instructions. I figured it'd be at least 10 minutes or more. Within 5 seconds, and I am not kidding - 5 seconds - the clog was gone, water drained right down. It's been 4 days and no build up of water again either (I thought maybe it was short lived and you'd have to go back and redo). This was soooo easy and much quicker than any drain opener liquid (typically it would take at least 2 applications, plus NO SMELL, NO CHEMICALS. GREAT PRODUCT!!!!!!!"

"I got hair out of my bathroom sink so in that sense it worked, however what the demonstration did not talk about is what to do with different types of drains. Turns out my bathtubs won't take even the smallest of the snakes

because of the type of drain I have and of course I had no idea until I tried to get the snake into the drain. Good idea, I just wish it worked for my tubs too."

"I have spent way too much money on drain cleaners for my bathtub and the cleaning would only last a few weeks. When I noticed that I was taking a shower and a bath at the same time, I used the FlexiSnake. In less than 10 minutes, the water drained. I pulled out hair and soap (shampoo, conditioner, etc), cleaned off the tip of the FlexiSnake so I am ready for the next time. I know that I will have to use it again but I would much rather use this than pouring harsh chemicals down the drain."

"I purchased this because my husband always takes apart the drain and gets my long hair out and I wanted to see if I could do it. I have a sink that would fill up and the stopper would not stay. Well, this morning with my husband right there I tried the flexi snake. Oh my gosh, the hair that came out was incredible, it was enough to make a wig!!!! My husband was amazed. My sink drains real fast and the stopper stays put. Excellent product. Thank you."

"These FlexiSnakes are the best! I, like many other reviewers, was about to call a plumber for my master bathroom shower. I have long hair and know that it gets caught in the drain. My shower was not draining at all before these arrived. I used them immediately and couldn't believe what came out (gross)! Buy these instead of calling an expensive plumber, you won't be disappointed."

"I have tried everything on the market to clean my drains in the bathroom but nothing worked. After reading the wonderful, successful reviews I gave this a try. It took me less than 10 minutes to clear two drains. I must have wasted several gallons of water as I watched the water slide down those drains. My sons gave me a bad time for purchasing yet another gadget but I had the last laugh. The next day two of my flexi snakes were missing. Turns out my sons each took one to work to show the guys. Thanks for a great product and for making me a hit amongst my sons and their friends."

"I caught the on-air presentation of this a few days ago and decided to give it a try based on the testimonial calls. I've been living with a slow drain in the bathroom sink and was on the verge of calling a plumber, since a chemical drain opener didn't help at all. The set of FlexiSnakes arrived today and I immediately tried one. I could not believe how much hair it removed, and the water is now draining as it should. I enthusiastically recommend this product--it saved me the expense of a plumber."

Yes, chemical drain cleaners take care of tough clogs. But they're often expensive and laden with toxic additives. So try a more natural--yet effective--approach with these rubberized, bendable drain tools. Just insert the FlexiSnake into a drain and twirl. A flat pad covered with

hook-and-loop material grabs hair and soap residue and for a quick, clogged sink, tub, and shower drain fix.

- Includes two regular sized tools and two junior sized tools
- Regular tools measures 26"L with 1/2"W pad
- Not for use with solvents or extremely hot water
- Made in USA

"I hardly ever write reviews, but I had to this time. I had struggled with both the bathtub drain and bathroom sink drain for several years. Other products either did not work or only worked temporarily. This product is great for slow drains due to hair buildup. Yes, the stuff that comes out of the drain is gross, but I just wear disposable

gloves to deal with that and to clean the end of the tool as best as possible. Overall, it was simple to use and effective. Thanks!"

"I received today the set of 4 FlexiSnake Bendable Rubberized Wire Drain Tools ! Wow!!!! It was so easy and within minutes my drain was CLEAR after putting up with this SLOW drain for months !!!! I put off calling a plumber, since this was my only plumbing problem and knowing that a plumber would charge at least \$60-\$70 or maybe even more just to walk through the door! This was the best purchase I have ever made!!! I will tell all of my friends and family. It is definitely worth the money!!! Kathy"

## Best thing to buy for plugged drains!!

"I happened to have a slow drain in the bathroom. Hair of course. I hate using the chemicals in the drain and don't like the big drain tools as they don't go down the hole with the plug. BUT this item is so slick. It was terrible what was stuck in the drain but now the water rushes down quickly and no chemicals involved and quick to unplug. I highly recommend this item. A great gift idea as well."

## WHY DIDN'T I INVENT THIS???????

Posted by kajacks 05-04-10  
[\(read all my reviews\)](#)

**Overall Rating** ★★★★★

"I can't believe what a great and simple idea this is! For the past 20 years, we've had one of our bathroom sinks constantly becoming plugged and unable to drain. At around \$75 for the plumber to come out and get the thing draining again, I was at my wits end. Multiply that by 20 years and, well, you do the math! I can't believe that for under \$20, I used this product one time and that sink has been draining like new. I went and scraped every sink in the house and was amazed, and quite disgusted, at all the gunk that has been down in the drains! This is one of the BEST products I have ever purchased as a cleaning tool. I highly recommend this product. The only thing that I am disappointed in, is that I didn't think of this or invent this first!"

## Works great, As advertised BUT...

"Excellent idea, worked on my old bathroom sink drain. Couldn't believe what came out of there....but...I agree with the person below about not being able to fully clean the end. You need to get a bunch of disposal paper towels to pull the nasty stuff off, then rinse the end. However, you're still left with the little nasties stuck on the plastic like velcro tips. Other than that, these nifty little wires do the trick and do exactly what was advertised. I don't think the price is that good, I would only pay 9.99 for this set and 3.97 shipping for usps is a bit high as well. 18.00 is alot....You might consider dropping the price to 9.99, you would sell even more. The end reminds me of a mascara wand....Overall, these do work....My recommendation to anyone thinking they need to replace pipes or get a new sink due to age and constant clogs is to try these first.."

"I have tried so called "professional strength" liquid drain openers and they only partially cleared the clog. I followed the instructions and brought up the clog (small clot of disgusting hair and gunk), turned on the water and the drain is clear! No slow drain, no water backing up in the sink. After removing the clog from the tool with a paper towel, I cleaned it with an old toothbrush, dishwashing liquid and water and stored it under the sink. It works!"

"These work well to bring up hair from the tub and sink drains. They are small, pretty easy to store (except they are unravelled coils, but I think I'll figure out a way to store them well) they are small and don't take up much space. They are effective and you can clean your drain with the stopper still in place. The only thing I do not like is the gunk that stays caught in the 'velcro'-like fibers, I think that is disgusting, but I'm not sure how to 'clean' them up after you use them. it 'holds' on to the filth it gets out of the sink. Too bad they are 'disposable' - more in a pack but made more disposable maybe. Just an idea. Great invention."

"This product is AMAZING! I had a bathroom sink with a slow drain that I had tried all kinds of chemicals on. They never fully unclogged the drain so I quit using that sink and just used the other one. Within 5 minutes of receiving the snake, I had the drain unclogged and the water flowing freely. It was really gross the stuff that came out of the drain. I love this product because there are no harsh chemicals involved and it pays for itself after one use."

"My bathroom sink HAD proved impossible to unclog. I had tried everything, saw this little snake and thought why not give it a try. I had so much gunk that after much use on that first clog one snake broke but the clog is GONE. The one that broke took a lot of punishment getting all of the clog so I am still pleased. I have 3 left and it will never get that bad again. The hair & soak gunk is pretty disgusting. Thanks for a great little product that really works."

"My bathroom sink was always clogging up. I have used clorox, drain cleaner, vinegar and baking soda, and a plunging action using a sponge. While I could always get the drain working some, it always clogged back up again.

I used this FlexiSnake and my drain in clear and staying that way -- hasn't slowed down at all. I only gave 4 stars because I had a little trouble using it, but it certainly did the job."

Yes, chemical drain cleaners take care of tough clogs. But they're often expensive and laden with toxic additives. So try a more natural--yet effective--approach with these rubberized, bendable drain tools. Just insert the FlexiSnake into a drain and twirl. A flat pad covered with

hook-and-loop material grabs hair and soap residue and for a quick, clogged sink, tub, and shower drain fix.

- Includes two regular sized tools and two junior sized tools
- Regular tools measures 26"L with 1/2"W pad
- Not for use with solvents or extremely hot water
- Made in USA

"I bought this product hoping it would work on my sink that gets clogged all the time. It absolutely worked exactly as advertized. All I did was unwind it, stick in down the drain (did not even have to take off the stopper) pull up and all the clogging gunk came right out. I would definitely recommend this to anyone with a similar problem."

"I was skeptical but decided to give it a try. Boy, was I surprised! This thing works like a charm! WOW! My sink is better than new! I've tried ever liquid product out there and nothing ever worked. I have long hair and the only plug in by bathroom is right next to the sink, meaning that I have to dry my hair right over it. That means, in spite of my best efforts, hair goes down the drain. This product is a LIFESAVER!"

"My husband thought I was crazy to purchase these. I told him to just let me try them and see what happens. I was totally amazed myself at what had been left behind in the drain after I had used a brand name drain opener! I have long hair and try not to get it stuck down there in the course of getting ready in the morning, but was SHOCKED at how much I pulled from the initial use of this product! Thank you QVC! You keep saving us money on product like these!~"

"I didn't have to call a plumber or buy more drain cleaner (which didn't work.) I didn't even have to remove the metal stopper. Just keep it straight and push it down. Move it around and/or up and down. I pulled up hair, paper and gunk. I only used the smallest size. My bathtub drains perfectly now. Sixteen dollars was a small investment. for these. Would make a great Xmas gift for anyone. Thank You So Much."

## "CLEAN & GREEN"

"I bought this item hoping it would solve an ongoing problem with my drains - HAIR BALLS!!!! Between my adult daughters long coarse hair, my granddaughters long ringlett curls and my long coarse hair we always had slow draining sinks & tubs. I used the flexiSnake one time in each drain and the clogs were GONE!!! I think I have used every chemical sold over the counter and nothing , I mean NOTHING worked as well as the FlexiSnake. I shared them with my sister who has the same problem in her mobile home and she was very pleased with the results. Get rid of the toxic chemicals and go GREEN and CLEAN with the FlexiSnakes, oh and save your plumbers expertise for something more significant!!"

"Used these on my bathroom sink and they worked great! My sink was running really slowly for quite awhile. I tried several liquid clog removers several times each, but the problem kept getting worse until finally it wouldn't drain at all. I am not handy at all and don't even know how to remove the stopper from the bathroom sink drain, but I got this through, wiggled it around in the drain, and pulled out some hair. Not as much hair as I expected, considering the amount of trouble it had caused me! The sink drained right away. Kept thinking that since it wasn't as much hair as I'd expected the clog would come back or the sink would at least start to drain slowly again. I've waited 2 weeks and the drain is still working perfectly!"

## Great for getting rid of hair in drain

"These are wonderful for pulling hair out of the bathroom drains... shower or sink. AWESOME job and trust me when I tell you - you will be surprised at the amount of gunk you will pull out if your drain is clogged. Great product - great performance!! Best thing - no chemicals. I have major allergies and get chemical bronchitis very easy... I simply can not use drain cleaning liquid gels but I can use this with no issues. Thank you for a chemical free solution to my drain clogs."

"This product just saved me \$250! My master bathroom sink has been out of commission for quite some time now. Interestingly, I had a plumber come in and give me a quote the same day this item aired on QVC. I chose to give this product a try instead...especially because my mortgage payment was right around the corner. I figured I had nothing to lose and if anything, I could return it if it did not work. Boy am I happy that I made the phone call and ordered the FlexiSnake! It literally removed a handful of hair out of my sink. I was in SHOCK! I could not believe that the FlexiSnake worked. I will definitely refer this product to other home owners!! Worth EVERY dollar."

"I thought I would give this a try since all other methods failed but I wasn't real positive about results. I am giving it only 4 stars because it did not work on my bathtub drain, however, on my bathroom sink where I had the most problem with hair, it worked like a charm. For the convenience, ease and price, if it only worked on this one drain, it was worth it for me. Thanks for a great product."

"I recently moved into a 13 year old house and it appeared that the drains had never been cleaned. I tried a couple of attempts at liquid drain cleaners, but the problem did not improve. Eventually I was standing in ankle deep water.

I got the FlexiSnake -- it was easy to use. I started to pull out wads of gummed up hair. Now the drain is perfectly clean and free flowing. I won't both with those liquids again. Thanks for bringing us an excellent product at a wonderful price."

**Silly excuse for a drain cleaner**

Posted by Hershey275 02-16-10

**Overall Rating** ★☆☆☆☆

"I was very interested in this product because of a slow moving drain; a result of hair. The wire is flimsy, noting that it needs to be flexible, but it can't be pushed properly and jams up in the opening of the drain. When I pulled out the snake, it only revealed a small amount of gunk. I felt it wasn't a good product. I am sure there are stronger wires for better manipulation."

"My bathroom sink has been running slow for so long and kept getting worse and worse. I tried everything from chemical drain cleaners to a "green" solution of baking soda and white vinegar followed by boiling water. Nothing worked. I put this little snake down the drain (didn't remove the stopper) and pulled out hair and other mystery gunk, and now my drain works fine!!! This is the greatest product and so much cheaper than buying drain cleaners."

### What a waste of money

"Due to illness, was not able to send this back in time so am stuck with it. But it did not work for me. I'm in an older bldg., lower floor apt. sitting on a slab, so the bathtub plumbing does not go straight down. I could not for the life of me get this thing to go further than an inch and the bathtub is where I needed it the most as the water backs up when I shower. Did not work in kitchen or bathroom sinks either. I think would work better too if it had a better handle to work it down into the drains. These slip around too much in my hands. Just not a good deal at all."

"I just got this yesterday and ran right to my bathroom drains and I could not believe what I pulled up. It is kinda gross but this works better than any drain cleaner or baking soda and vineger solution. And its fast. And they were right....when I did my shower it did look like I had pulled out a rodent, really, you have got to try this product, I am sold.

I did not want to take the cover off my shower so I just cut off half the large tool and it worked great without having to drag out tools."

"I would not take the time to write a review unless I was absolutely thrilled with a product. Within a half hour I used these wire drain tools on all my bathroom fixtures. I recently bought a new home and you would be amazed at what was clogging the drains! I pulled out tons of hair and was happy to actually hear the water drain quickly out of the bathroom sinks! Worth the investment! Routine cleaning will eliminate costly plumbing bills. I recommend this to anyone, especially if you do not want to harm your pipes with chemicals. Thanks again QVC!"

Description

Delivery Date Estimate

Yes, chemical drain cleaners take care of tough clogs. But they're often expensive and laden with toxic additives. So try a more natural--yet effective--approach with these rubberized, bendable drain tools. Just insert the FlexiSnake into a drain and twirl. A flat pad covered with

hook-and-loop material grabs hair and soap residue and for a quick, clogged sink, tub, and shower drain fix.

- Includes two regular sized tools and two junior sized tools
- Regular tools measures 26"L with 1/2"W pad
- Not for use with solvents or extremely hot water
- Made in USA

"I've struggled with my bathroom sink for some time now. I've used liquid clearing type products that would take overnight usage to only ease the problem, not solve. With this item straight out of the package and into the drain.... it worked! I honestly had no clue that much hair (with soap scum and other goo) was lodged in my drain. This item works!!!"

### Didn't work for me.

"I liked the idea of this item during the on air presentation. Admittedly, I thought the dry hairball in the drain didn't represent reality at all. It was pliable enough to pass into the tub drain and trap but not rigid enough to twist without folding up on itself. It just did not work at all for my needs. It's going back."

"I purchased this tool for the sink in the bathroom that is constantly clogged. It is such a major chore to dismantle the drain to remove the clog. In 3 minutes flat I had that drain completely clear and running like new using this tool. Thank you so much this paid for itself after 1 use. I highly recommend it."

"I had a bathroom sink that was slow to drain. Tried a well known liquid drain cleaner and it didn't work. Saw this, tried it. Yes, it was gross what came out of the drain, but, what a difference. I purchased when it was first on. The drain has been clear for many months. I still have the other 3. Well worth the money. Thanks for a great product."

"Short story...I tried to take my sink stopper out of one of my sinks and the tiny washer was lost in the p-trap. I went to a fixture store to try to purchase a new one and they didn't even carry them. The young man was kind enough to open a box from the stock room and take out the washer and gave it to me. I thought...what if this happens again?! So...thank you sooooo much for this fabulous tool. It works like magic and will save me from that ever happening again!"

## EXCELLENT PRODUCT

"This is a wonderful product. One of my bathroom sinks had slow drainage for a few weeks. As other customers have stated, I tried all types of drain cleaners, etc. and was just about to call a plumber. However, I saw this product on QVC's website and decided to give it a try. As soon as I received these tools, I used one of them to clear the "gunk" out of the drain. I was amazed at how quickly it worked. The water immediately began draining out normally. I am very happy with the results and recommend this product to everyone!!!"

## Didn't Work

"In the bathroom the water was slowly running down the drain. I thought to purchase this product and all my troubles would be over with. I tried both drain tools to no avail. Had to purchase heavy duty drain cleaner and a drain snake from the hardware store to loosen up mostly my husbands shaving cream that had hardened. I think if it is only a hair issue it will work, but I was very disappointed it did nothing for my problem."

## Great idea, but misses the mark!

Posted by Lortney 10-30-09

[\(read all my reviews\)](#)

Overall Rating 

"The idea is fantastic, but needs some work! They didn't say on TV that the product was a one time use, so imagine my surprise after ordering and reading the reviews! I usually take my sink apart and use an ice pick to get the hair, slime, and mold out, and it takes about 15 minutes per sink! This product did make a fast job of it, but I still took the drain plug off to clean all the gunk off of it. You have to clean that gunk off and this won't get it all. Then I thought I would try to clean all the grossness off of it, which I did, but I still had to get my hands gunky and it was difficult. I did manage to clean it for re-use. The product, while relatively cheap is too expensive for a one-time use! I think that perhaps, it should be made with the idea that the dirty tip can be disposed of, and have extra tips to be put on it! QVC, is that possible? Won't buy again unless the tips can be thrown away and replaced at a reasonable cost! By the way, I don't know anyone who has a dry hairball down the sink! It is wet hair mixed with slime! Let's be real here!"

"I have to agree with everyone else. I bought this to use in my bathroom drain. Once and it was clear. This product did what several, and I mean no less than 10 applications of different drain cleaners, could do! I was surprised to see that this was a disposable product, but after clearing my drain I gladly threw away. Yuck! Do not hesistat to buy this. Worked perfectly!"

"My bathroom sink was running very slow. I tired several different drain chemicals and even tried soda and vinegar. Nothing worked. "I too saw this on air just as I was wondering what to do about my slow bathroom drain. I figured I'd try this before I called a plumber and am I glad that I did. It pulled a hunk of hair out of my drain that was rather scary in size. I had no idea all that was down there. Needless to say, the slow drain problem has been taken care of, and for a lot less than a professional would have charged me."

"Not everything you see on TV works as advertised, but this really did. The only alternative we had before was strong chemicals to clear the drain, and with my asthma, we could only clean a drain when we were going to be gone for several hours. That problem is gone, and it's a true delight to have something that fits the drain in the bathroom sink without having to take the assembly apart."

"This product is AMAZING!! It does exactly what it says its going to do and not disapointed but amazed on how great it works. Drain was causing water to overflow in the tub while showering. My kids didn't even want to use the shower any longer. We used this product in the drain and pulled out like 3 big blobs of hair that was plugging the drain. Had used chemicals before but nothing worked. We could see why after pulling out all that hair out. Buy this don't waste your money on anything else. Fabulous product. I wish all products would do what they say like this one..You will not be disapointed at all..."

"I have been a QVC customer since its inception and I have to say, this is one of the best, most useful, practical items I have ever purchased. It works exactly as demonstrated. I was amazed at how much hair and gook I removed from my bathtub drain. Even my DH was impressed. I did not want to keep using chemicals in my drains and the snake went all the way down and did such a fantastic job. I would give this 10 stars if I could. Best investment I made in a long time."

"I could not believe the gunk that came out of the drain using this tool. It did take both the small and one larger on my bathroom sink drain, but I do have the other two ready for the next time I need them. Not sure what all was in the clumps that it grabbed, but glad its gone and my drain is working like it should!!! I agree, they are not reusable and not sure if you would want to with as much gross stuff that gets on it. This is worth the money and I would buy them again when needed."

"This product definitely does what it claims. No more "up to ankles in water"! The only thing I disagree with is being able to clean them. On the demonstration they show the hair being removed and cleaned off, but that hair is dry and I don't know about your drain, but the stuff in my drain is wet & goopy! I have no issue with it only being a one-time use, because the cost of a plumber to snake the drain would be at least 4 times what I paid for the set of 4. Great job!"

"I am a single mom with a teenager with long fine hair that tangles even on her head when wet. You can imagine what happens when that hair makes it's way down the shower drain...and yes, she even gets it in the sink drain! 3 times now, the Flexi Snake has been my saving grace! It is truly amazing! I had tried drain cleaners and nothing happened. One day I was walking with my girlfriend and told her about my plight and then she told me her husband invented this really cool gizmo that would do the trick! I have used both sizes of the Flexi Snake and they do the job wonderfully! I don't know what's more exciting: my clean drain or the fact that I know the inventor!"

## It really worked!

"And it's so easy to use. Yes, indeed. It's a money saver because my only other option was to call a plumber (or wait for my too-busy brotherinlaw). The famous D drain cleaner only took care of part of the problem. Such a little thing has made me so happy :) They don't take up much storage space. I cleaned mine and plan to reuse it. Easy, easy, easy. Works, works, works."

## Difficult to use in this old house . . .

"I so wanted these to work but unfortunately they were extremely difficult to push around the stopper mechanism. The amount of "stuff" removed from the bathroom sink was negligible and it was next to impossible to insert into the tub drain. Our home is 30+ years old and the plumbing fixtures are old so perhaps they work better on newer fixtures. Sadly they are being returned."

"I used this on my shower drain, and Oh My Goodness! I honestly thought I pulled up a dead rat, it was such a big hair glob. If I had called a plumber, it would've been about \$100 a visit. This is worth it. These are disposable, so you only use them once and toss. So you are getting 4 jobs done for one low price. I had been pouring liquid draino down the shower about 1x a month, but the drain was still slow - now it's obvious why! Those drain cleaners cost about \$4 a bottle, and don't fix anything. This is about \$4 a flexisnake and it takes care of the problem without any chemicals!"

Description

Delivery Date Estimate

Yes, chemical drain cleaners take care of tough clogs. But they're often expensive and laden with toxic additives. So try a more natural--yet effective--approach with these rubberized, bendable drain tools. Just insert the FlexiSnake into a drain and twirl. A flat pad covered with

hook-and-loop material grabs hair and soap residue and for a quick, clogged sink, tub, and shower drain fix.

- Includes two regular sized tools and two junior sized tools
- Regular tools measures 26"L with 1/2"W pad
- Not for use with solvents or extremely hot water
- Made in USA

### Absolutely amazing

"Noone gets excited over a product that cleans your drain, but let me tell you - these rubberied wire drain tools are amazing. I used the smaller drain tool in my sink drains, and I don't even want to describe the "yuk" that came out of them. It was disgusting, it smelled, and now the water goes right down the drain. This not only solved a problem, but I am going to guess it solved a future problem - before it happened. Awesome product. I will absolutely buy these again!"

### Great Product

"I just recieved my drain tools this afternoon. We had a constant problem in our bathroom drain and tried everything to clear it. I used the bendable snake and was amazed at how well it worked! It got out all the hair and gunk that was blocking the drain. There was much more in there than I could have imagined. I highly recommend the FlexiSnake to anyone thinking of making this purchase. It pays for itself the very first time you use it!"

## Very Helpful Tool

"I just used the small FlexiSnake in my bathroom vanity sink and it very easily removed (just as depicted on the on air presentation) a moderate amount of hair. I have been pouring liquid drain cleaners down the sinks and bathroom tub drains for years and years, but while they help somewhat, they do not remove most of the hair clog. This is a very helpful tool to have around the house. It would be nice not to have to use so much of the corrosive liquid drain cleaners in the future. Thank you QVC for a very nice product."
